REVIEW 1

ACKNOWLEDGE

Our group would like to devote this chapter to express our sincere appreciation to all those who offered us valuable assistance during in carrying out this Project.

Firstly, we owe a debt of gratitude to our dedicated instructor, MS. Le Mong Thuy, whose suggestions and encouragement helped us to overcome not only technological challenges but also psychological tension. Without him, our work could not complete successfully.

Secondly, we highly appreciate the Project Team at the Head Office, which has provided us an excellent opportunity to apply what we learned into practice. We are certain that the experiences we gained from this project will facilitate our future career greatly.

Thirdly, we would also like to express my gratitude to all the staff members of my center for not only providing me with the opportunity to work with them on this project, but also for their support and encouragement throughout the process.

Finally yet importantly, we wish to say a personal thank you to all our dear classmates and team members who are always willing to support us openly and enthusiastically.

INTRODUCTION

ZenStyle Salon – Relax and Retreat! Welcome to the official website of ZenStyle Salon. The name **ZenStyle Salon** evokes a space that is not just for beauty but also a place for healing, relaxation, and finding balance.

ZenStyle Salon offers beauty services including haircuts, manicures, skincare, and scalp massages. Customers can freely choose their preferred services, book appointments at their desired times, and purchase hair care, skincare, and nail beauty products.

For ZenStyle Salon's customer base:

- Unregistered visitors can register for a member account.
- Registered visitors can log in and manage their personal account information.
- Visitors can search for beauty products by price range, by name and type.
- Visitors can view detailed products and real images before checkout.
- Visitors can view detailed Signature Services and availability before making a reservation..

Prepared by: All members	Approved by: Lê Mông Thúy
Project Group No: 5	Version: 1.0

Design Plan: ZenStyle Salon	Document Name: Review 1+2
Effective Date :27/12/2025	Version: 1.0

- Visitors can select and reserve services, products by adding them to their cart.
- Visitors can view their current and past booking history.
- Visitors can proceed to secure and instant checkout.
- Visitors can review, modify, or cancel upcoming bookings (according to salon policy).
- Visitors can contact the salon for inquiries or feedback via the "Contact Us" function.

PROBLEM DEFINITION

After analyzing the project specifications of ZenStyle Salon, and to properly meet the requirements of modern customers, we concluded that to achieve optimal functionality and user experience, the system should address the following queries:

FROM THE VIEW POINT OF VISITORS

- A homepage will highlight services, beauty products, promotions, and display a consistent logo across all pages.
- A navigation header and footer will include all available functionalities of the website.
- Visitors can search for beauty products, view services details, check availability, and make online reservations.
- Registered visitors can log in, manage their profile, view booking history, cancel or modify upcoming bookings, manage their product cart. Receive promotional emails or member-only offers.

FROM THE VIEW POINT OF THE ADMINISTRATOR

- An admin login page will provide access to the ZenStyle Salon management panel.
- Admin can view, add, update, delete, and manage services, manage inventory.
- Admin can view, search, lock/unlock, or delete customer accounts.
- Admin can view, update, cancel, or manage booking orders.
- Admin can manage registered user accounts, including updating details or resetting passwords.
- Admin can send newsletters or promotional campaigns to subscribed users.
- Admin can register and assign roles to salon staff or customer service representatives.

CUSTOMER'S REQUIREMENTS SPECIFICATIONS (CRS) CLIENT: ZENSTYLE SALON

BUSINESS/PROJECT OBJECTIVE:

The objective of the ZenStyle Salon website project is to create an easy-to-use online booking system that enhances customer experience and streamlines salon management. The platform will enable users to book services, manage reservations, view products and checkout.

INPUT TO THE SYSTEM:

Prepared by: All members	Approved by: Lê Mộng Thúy
Project Group No: 5	Version: 1.0

Design Plan: ZenStyle Salon	Document Name: Review 1+2
Effective Date :27/12/2025	Version: 1.0

ZenStyle Salon administrators need to provide:

- Information required to create admin accounts for accessing the salon management system.
- Details of salon services, beauty products types, and availability that will be displayed on the website.
- Payment methods and pricing for services, as well as any applicable discounts or promotions.
- Information required to create staff accounts within the admin system, including roles and responsibilities.

Customers ZenStyle Salon need to provide:

- Personal information for booking services and buy products (name, contact details, etc.).
- Email information to receive promotional offers, newsletters, or booking confirmations.

PROCESS FROM THE SYSTEM:

ZenStyle Salon administrators will be able to:

- Login/Logout to the admin system.
- Manage (view, add, update, delete, hide) signature services, availability, and pricing.
- Manage (view, add, update, delete, find, lock, unlock) customer accounts.
- Manage (view, add, update, delete) news and promotions.
- Manage (view, add, update) product types and inventory.

OUTPUT FROM THE SYSTEM:

- Search for services and products by name, price, or other filters.
- Add to the cart and proceed to checkout.
- View booking history.

SCOPE OF WORK

The application should perform the following functions:

LOGIN:

- There are 3 types of accounts in the system: **admin**, **staff**, and **client**.
 - Administrator logs in as **admin**.
 - Salon staff logs in as **staff**.
 - Customer logs in as **client**.

For “admin”:

- Can view, add, update, and delete information related to salon services, product types, availability, and pricing.
- Can view customer information (ID, name), add new customers, update details, delete, lock, and unlock accounts.
- Can view and manage news and promotional content.
- Can view and manage services bookings and reservation records, manage inventory.
- Can assign roles and manage staff accounts.

For “staff”:

Prepared by: All members	Approved by: Lê Mông Thúy
Project Group No: 5	Version: 1.0

Design Plan: ZenStyle Salon	Document Name: Review 1+2
Effective Date :27/12/2025	Version: 1.0

- Can perform similar tasks as admin but limited to **view, add, and update** only.
- Cannot delete data, or lock/unlock customer accounts.
- Cannot manage staff or admin-level settings.

For “client”:

- Can only view the services and products.
- Cannot add, update, or delete any data.

ORDERING SERVICES:

- When a customer selects a service or product, the chosen product or service will be added to the cart.
- Customers can book services or buy products from the booking cart by clicking the “Checkout” button and filling in the required information.

DATABASE:

- Information about services, products, customers, news, and reservations will be stored in the database.
- Data submitted from the “Contact Us” page will also be saved in the database.

REVIEW 2

1. DATA FLOW DIAGRAM (DFD)

LEVEL 0 - CONTEXT DIAGRAM ZENSTYLE SYSTEM

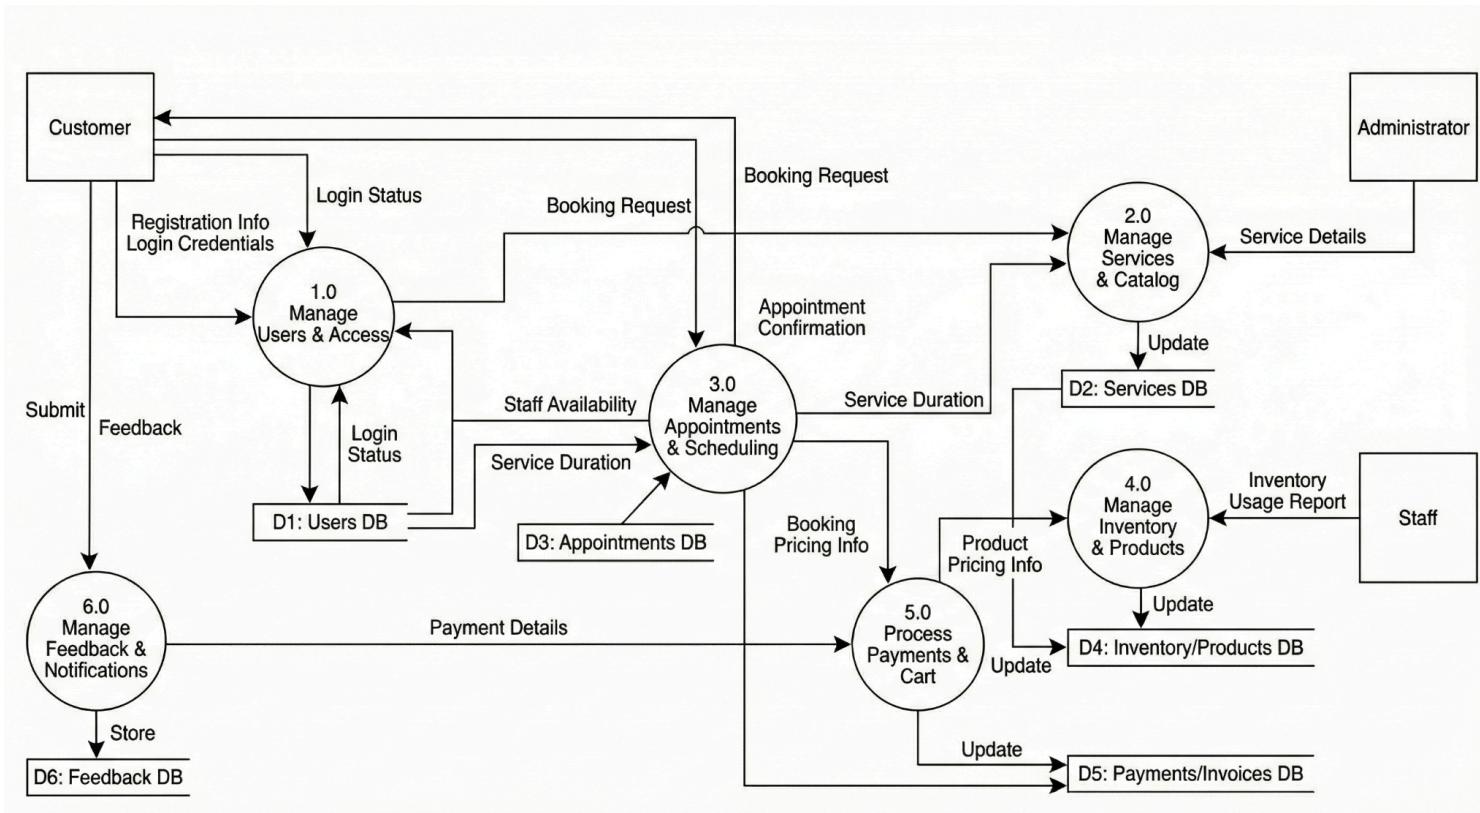

The Context Diagram (DFD Level 0) presents an overall view of the ZenStyle system as a single process and the data exchange relationships between the system and external actors, including Customers, Staff, and Administrators. This diagram helps define system boundaries and the main data flows into and out of the system.

LEVEL 1 - FUNCTIONAL OVERVIEW - ZENSTYLE SYSTEM

DFD Level 1 decomposes the ZenStyle system into core functional processes to illustrate how data is processed and stored within the system. The core processes include user management, service selection, service scheduling, product selection, payment, cart management, and notification sending. Data stores are used to store information for each corresponding function.

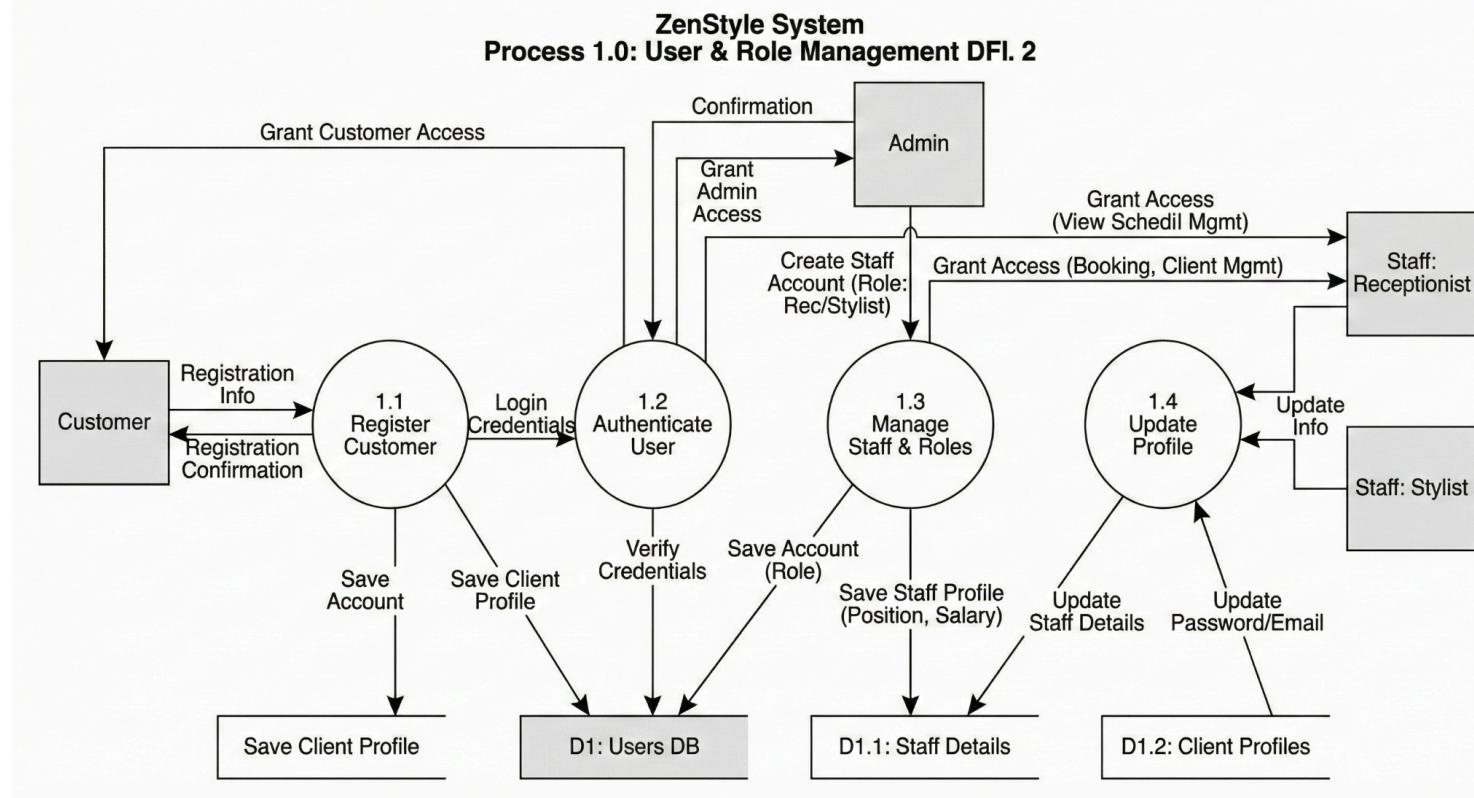

LEVEL 2 - Detailed Process Decomposition of ZenStyle System

Level 2 DFDs provide a more detailed view of each process in Level 1 by breaking them down into subprocesses. Each Level 2 diagram clearly shows the data flow between subprocesses, external agents, and data stores, clarifying how the ZenStyle system handles business logic at a detailed level.

Level 2 – User & Role Management (Process 1.0)

This diagram details the process of registering, logging in, and managing user access rights within the ZenStyle system, including customers, staff and administrators.

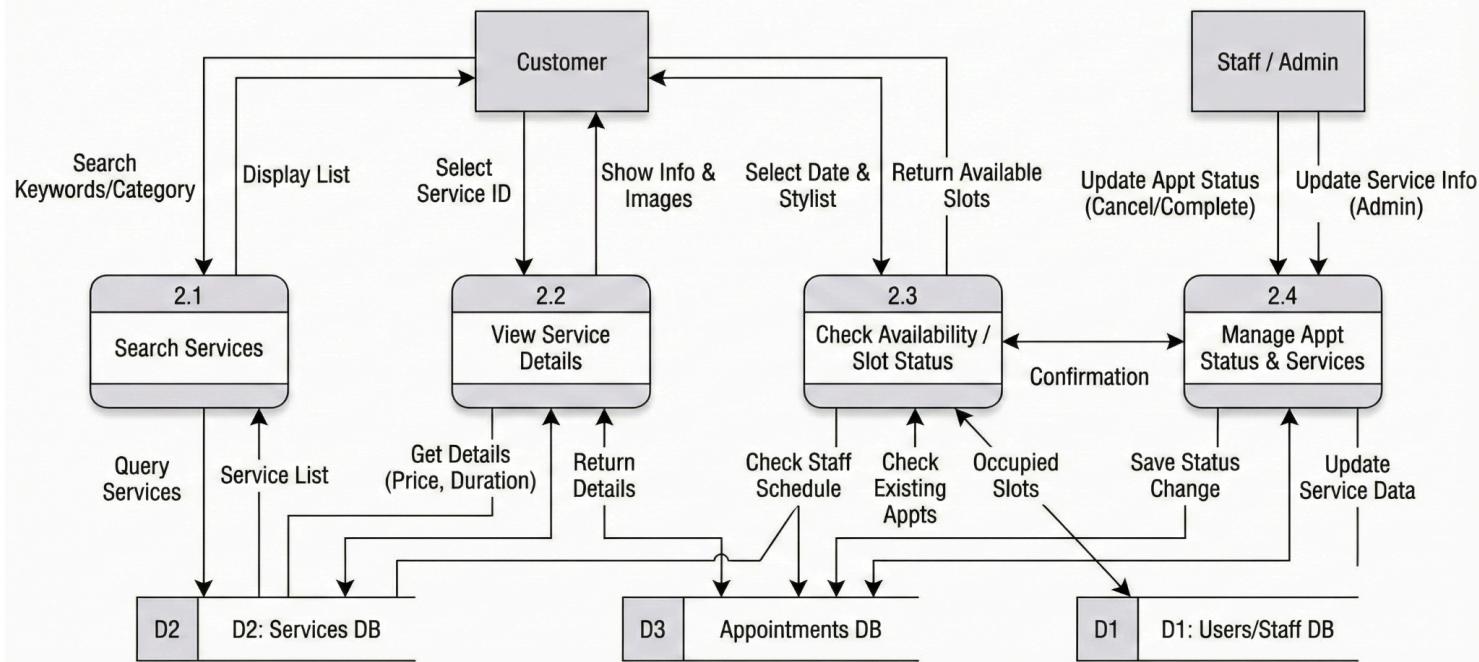

Level 2 - Search and View Services & Appointments Management (Process 2.0)

This diagram illustrates the process of searching for services, viewing service details, identifying available appointment slots, and managing appointment booking statuses for services.

Level 2 - Search and View Products & Add to cart, manage cart, checkout (Process 3.0)

This diagram illustrates the process of searching for, viewing details of, and checking the quantity of beauty products available. It then shows how to add products to the shopping cart and proceed to checkout.

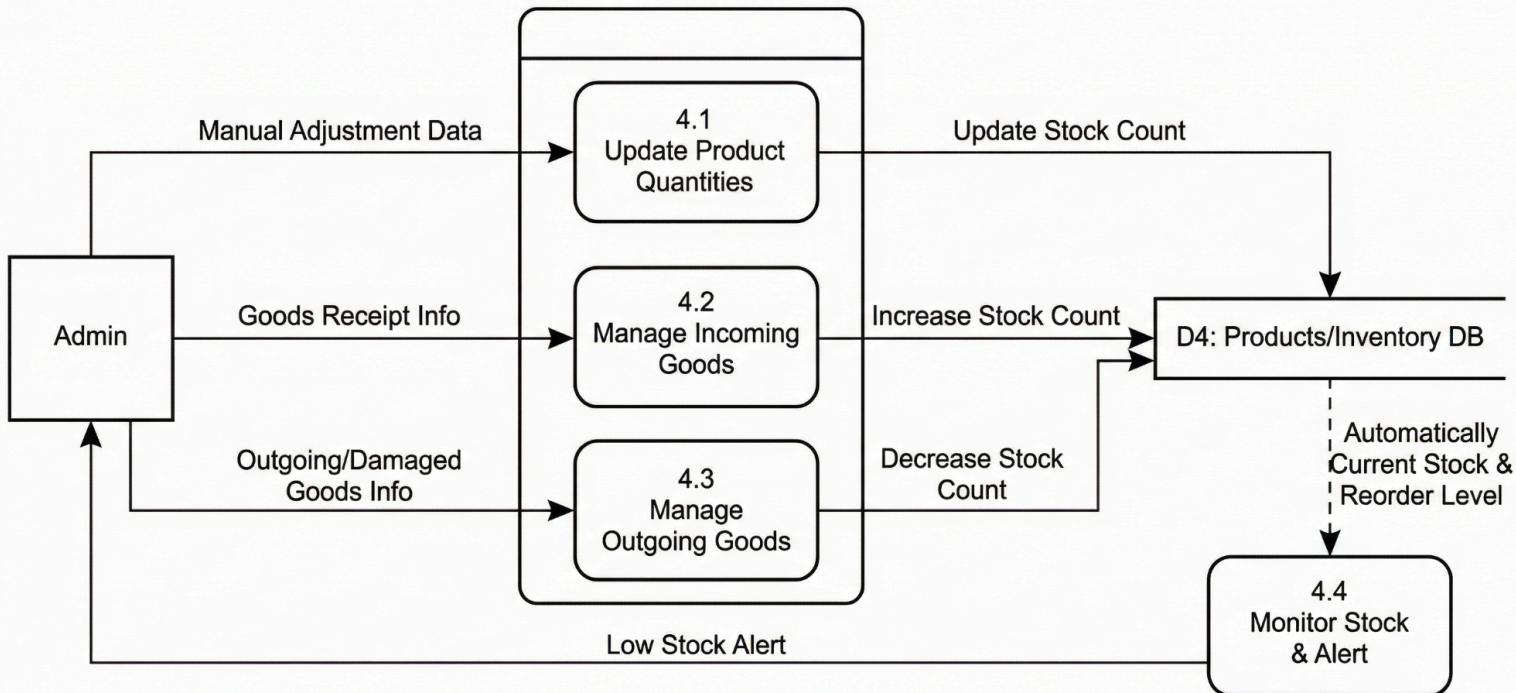

Data Flow Diagram (DFD) Level 2 for Process 3.0 "Search, Cart & Checkout", ZenStyle System

LEVEL 2 - Inventory Management (Process 4.0)

This diagram illustrates the inventory management mechanism used by the Admin. The Admin has the authority to update product quantities, manage incoming and outgoing goods. The system will automatically send notifications to the Admin when a product is running low on stock.

 ZenStyle Haircut
Enjoy all the benefits of our classic haircut PLUS a customized Kerastase Fusio Dose conditioning treatment to target your hair concerns.

 Nourishing Hair Wash
At ZenStyle, we believe that true health and beauty begin with peace of mind. Each nourishing shampoo session not only helps to soften hair and clean, healthy scalp, but also releases tension accumulated in the head, neck, shoulders and nape - places considered the center of life energy ("blood circulation, relaxed mind").

 Nails
Restore and maintain the health of your nails with natural, paraben free, and 5-free nail treatments. We do natural nails and are unable to remove gel, shellac or acrylic. This allows us to provide a safe and welcoming environment for those with chemical sensitivities.
